2023-2024 License Year

Acoma Tribal Member Hunting Proclamation

GENERAL INFORMATION-PLEASE READ

All game, fish, and other wildlife are protected on the Pueblo of Acoma and may not be taken, possessed or transported unless specifically permitted by Tribal regulations. The Pueblo of Acoma has jurisdiction over fishing, hunting and trapping activities within its jurisdictional boundaries. The authority for licensing such activities resides exclusively in the Pueblo of Acoma (Title 7 Game and Wildlife Code, 2003). This proclamation has been approved by Tribal Council Resolution 2023-XXX. Therefore, all season dates and regulations found within shall be enforced by The Pueblo of Acoma Law Enforcement Services Ranger Department.

The general regulations pertain to all big game hunting on Pueblo of Acoma lands. The regulations found within the proclamation are not all inclusive. Read the proclamation carefully before hunting or applying for any big game hunting permits.

The Pueblo of Acoma will issue hunting permits on an application and random drawing basis for Elk and Mule Deer, and Turkey; Bear, Mountain Lion and Furbearer permits will be issued on a first come, first serve basis. Hunters must complete an application for each hunt they desire. Submit applications to the Acoma Game and Fish Enterprise office no later than **4 PM, June 2, 2023**. The drawing will be conducted by the Governor or his designee. This system ensures fairness and consistency in the draw. **The license year of this proclamation will begin April 1, 2023 and will end March 31, 2024.**

2023-2024 NEW ITEMS

- 1. Pronghorn Management Units:** For management purposes, five (5) Pronghorn Management Units (PMU) have been developed. The units are as follows: PMU 1 all Reservation Lands north of Red Lake not including Berry Hill, Gottlieb, Horace Mesa, La Ventana, or Sanchez Ranches. PMU 2 Red Lake Ranch. PMU 3 Pick Martin Ranch. PMU 4 Bar 15 Ranch. PMU 5 Berryhill, Gottlieb, Horace Mesa, La Ventana, Sanchez Ranch.
- 2. Archery Pronghorn Hunts:** to continue to improve the management quality of the pronghorn herd, the Pueblo of Acoma will be taking a proactive approach to ensuring the quality of the herd and success rates in future years by continuing a limited number of available licenses for the 2023-2024 hunt season. A total of five (5) Mature Buck (MB) archery permits will be available valid in PMU 1 and PMU 2 ONLY. See Pg. 20 for further information. Due to the high demand for pronghorn tags, a one-year mandatory waiting period will be required after holding a tag. For example, an individual who draws a pronghorn tag in 2023 will not be eligible to hold a tag until 2025.

IMPORTANT CONTINUING ACTIONS

- 1. Designated Hunter:** an enrolled Tribal Member who is authorized by AGF to harvest game for another tribal member (see regulations below). A designated hunter form approved by AGF is required and must be carried by the designated hunter while in the field. AGF may also harvest cow elk for elderly or mobility impaired hunters upon request.
 - a. Elderly Deer:** designated hunters may harvest a bag limit restricted mule deer buck for an elderly license holder who requests this service. The designated hunter must be an immediate family member of the elder. All deer harvested by designated hunters shall be a 3x3 or smaller buck (excluding brow-tines)
 - b. Cow elk:** designated hunters may harvest an antlerless elk and deliver meat to any elderly or mobility impaired tribal member who requests this service. The designated hunter must be an immediate family member of the requesting tribal member.
- 2. Elk Hunts:** The tags allocated for Horace Mesa have been redistributed to allow for muzzleloader and rifle tags. - 3. Tribal Senior Tag Designation:** Any hunter 70 years old or older at the time of the application deadline (June 2, 2023) will be considered a Tribal Senior. Deer, Elk, and Turkey permits held by Tribal Senior will be free of charge.

It is a federal requirement for all bobcats harvested on Acoma Lands to be pelt tagged by Acoma Game and Fish Staff. **See Page 24**

ELK HUNTS OFFERED ON ACOMA'S RANCHES (LANDS NOT IN TRUST)

Gottlieb/La Ventana Ranch E-PLUS

Tribal hunters who wish to hunt elk on both the Gottlieb and La Ventana Ranches may now do so under the State of New Mexico Elk – Private Lands Use System (E-PLUS). Acoma Game and Fish has obtained **6** either Sex Bow and **4** Either Sex Muzzleloader Elk license authorization certificates. These licenses are issued as “ranch only” and are valid only on these ranches. **Additionally, since these ranches are out of the “Core Occupied Elk Range” the permits are valid only on the deeded acreage, not on BLM or State parcels within these ranches.** Authorization certificates will be issued first come, first serve.

The deadline to obtain an authorization certificate from Acoma Game and Fish Enterprise is August 25, 2023. Hunters must submit the authorization certificate and license fee to any New Mexico Game and Fish Office on or before August 26, 2023 for archery elk and September 27, 2023 for muzzleloader elk. A hunter who obtains an authorization certificate may purchase only one private land elk license and may not hold a New Mexico private land and a public draw elk license in the same year.

POPULATION MANAGEMENT HUNTS

Acoma Tribal members who are experiencing crop damage by the resident elk herds should contact the Acoma Game and Fish Office; the need for hunts will be determined by Acoma Game and Fish and Tribal Administration on a case by case basis. Individuals attempting to kill elk without a depredation license will be considered poaching and are subject to prosecution.

- Tribal members who wish to be considered for Population Management hunts may apply to be placed on a call list for the opportunity to harvest problem elk. Only those tribal members who were unsuccessful in the normal elk draw may apply. The first applicant drawn will be placed at the top of the list; all applicants will be drawn and placed on the list in the order in which they are drawn. In the event that a conflict arises between a tribal member and the resident elk herd, Acoma Game and Fish will determine the need for population reduction and contact the next available Population Management hunter. The hunter will be asked to accept or decline the hunt. If the hunter declines, the next hunter on the population management list will be contacted. Bag limits for Population Management Hunts will be primarily cow elk, since these hunts are intended to reduce population in specific areas.
- **Population Management Fees:**

If a hunter is contacted and accepts a Population Management hunt, he/she will be required to pay the Tribal Cow Elk License fee of \$50.00 plus the appropriate taxes. Successful Population Management Hunters will be required to check in their cow elk at the Acoma Game and Fish Office so that biological samples may be collected. These hunts are on a draw basis.

Bag Limit:	Any 1 Javelina
Weapon:	Any legal weapon
Permits:	Unlimited. One permit may be held by an individual
Price:	\$10.00 plus 8% Tax
Eligibility:	Open to Acoma Tribal Members Only.

Managing javelina as a big game species is an important step in the understanding and establishment of a native species on Acoma. Current population numbers require a permit to harvest the animal and report of harvest to the AGF for biological data collection. Biological data collection will assist AGF in determining the population size, demographics, age structures, and distribution of the species. Listing javelina as a big game species will allow AGF greater opportunities to monitor the populations and assist the expansion of a native species.

Some Tribal Members have expressed concern over the damage that javelina can cause to infrastructure in the backcountry and the challenges that this may present. It is important to understand the difference between feral hogs and javelina. Javelina root for their food and leave evidence of overturned soil; most commonly at the base of trees, shrubs, or cactus. They are not known to cause extensive damages commonly seen with the presence of feral hogs. Feral hogs, not javelina, can cause major damage to back country infrastructure such as roads and water pipelines.

Feral hogs (left) are very different from native javelina (right). Feral hogs are non-native and can cause extreme damage to habitat and infrastructure. Javelina are a native species and should be managed as such. (Photo Credit: New Mexico Game and Fish)

NO PERMIT IS REQUIRED FOR THE HARVEST OF FERAL HOGS. IF YOU OBSERVE A FERAL HOG PLEASE ATTEMPT TO HARVEST OR PHOTOGRAPH THE ANIMAL AND REPORT THE OBSERVATION TO ACOMA GAME AND FISH IMMEDIATELY. FERAL HOGS HAVE THE POTENTIAL TO CAUSE EXTENSIVE INFRASTRUCTURE DAMAGE IN THE BACKCOUNTRY
